## HIGH VOLUME

## INDUSTRIAL DONUT SYSTEMS

Belshaw's HV Industrial Donut Systems are designed and manufactured for high volume wholesale donut production. The HV Industrial line concentrates on the heart of a donut production system – the depositor, proofer and fryer.

Belshaw has been producing donut equipment for over 80 years and Belshaw's HV Industrial systems

have been producing donuts for years in both the US and abroad.

So the next time you consider purchase of a wholesale donut production system, call Belshaw.

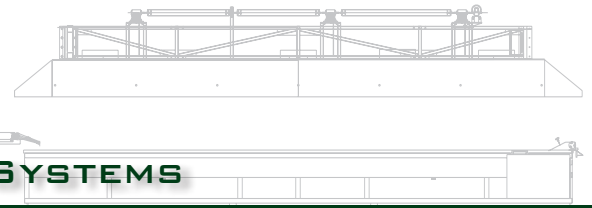

**...We're here to help.**
