

VIDEO: <https://vimeo.com/belshaw/glazer>

Belshaw's HG18EZ and HG18C glazers allow fast, uniform glazing of donuts, cinnamon rolls and other baked goods. These glazers conveniently glaze one full 17" x 25" screen at a time with minimal waste.

Glazers are movable on casters and require little space. A bottom shelf provides storage space for screens and a glaze bucket. A drain valve allows left over glaze to be poured out back into a glaze bucket. Stainless steel construction and sound design facilitate cleaning and provide a durable product that will stand up to years of everyday use.

The EZlift method employed by the HG18EZ glazer eliminates the heavy lifting associated with standard hand glazers. Rather than being carried by the operator, the glaze applicator slides along rails, and tilts down to fill up with glaze. This design provides even glaze coverage with little strain on the operator.

STANDARD FEATURES

- Glazes a 17" x 25" screen of donuts (2 dozen at once)
- **HG18EZ** glaze applicator slides on rails. Operator does not lift the glaze applicator manually.
- **HG18C** glaze applicator is a clamshell opening design to control flow of glaze. Operator lifts the glaze applicator manually.
- Drain tray is standard on both models
- Kettle needs only 1 large glaze bucket to fill.
- Drain returns unused glaze to a bucket for later use.
- Stainless steel construction throughout
- Ergonomic rounded corners (employees less likely to catch clothing, etc.)
- 4" heavy duty water-resistant casters (2 lockable)
- Washable in rack washer or by hose down with brush
- Certified to NSF-2
