Autofiller w/4-prong spouts

Autofiller (with standard nozzles)

4-PRONG SPOUTS FOR AUTOFILLER

- Suitable for injecting jellies, cremes, custards and similar smooth fillings
- Each injector prong is 5/16" outside diameter, 1/4" inside diameter
- Uses 2-piece teflon block as manifold to push filling equally through all 4 prongs
- Each injector prong extends 1-1/2" from teflon block
- 2-piece teflon blocks screw together with large sanitary thread
- Injector prongs are spaced in a circle of 2" diameter (see diagram below)
- Teflon and stainless steel materials
- Spout covers included
- Simple and quick to clean with warm water and mild detergent in sink, dish washer, or rack washer
- Injector control panel determines how much filling is injected, from 1/6 oz to 16 oz per spout
- Capacity up to 80 dozen per hour
- ETL Sanitation Certified. Conforms to NSF/ANSI Standard 8
- Conforms to CE standards

Certified to NSF/ANSI Standard 8
