## Donut Robot ${ }^{\circledR}$ Auto Fryers (Gas)

Belshaw Adamatic's Donut Robot ${ }^{\oplus}$ Mark II Gas / Mark II GP Gas Fryers deposit, fry, turn, and dispense cake donuts and mini donuts automatically. These fryers use the same cake donut depositor and the same conveyor as Donut Robot ${ }^{\circledR}$ electric models and produce donuts of the same high quality. Training and labor requirements are low, while consistent donuts are produced by a single person.

- Donut size can be adjusted to make smaller or larger donuts. (approx 20\%)
- Frying time and temperature can be adjusted through a wide range.
- Donut Robot ${ }^{\circledR}$ fryers can reduce oil absorption in comparison with most kettle fryers applications.
- Models are available in propane only.

## ACCESSORIES

OPTION 1: Filter Flo Siphon (DR42-1048) + Shortening Reserve Tank (MKV-1012)

- Filter-Flo extracts and filters shortening from the fryer. A metal pan is needed to hold shortening after it passes through the Filter-Flo. The Shortening Reserve Tank keeps melted shortening above the fryer, making it easy to add more at any time.

Roto-Cooler (22104)

- Attractive, continuously rotating tray that collects donuts automatically after frying. Position it just off the end of the fryer.

## Support Table for Fryer (MK6-1005)

- Houses the Mark II or Mark V fryer, EZMelt 18 filtration system, and RL18 Rack Loader.
- With storage space for shortening, glaze, screens, and assorted items

## Rack Loader RL18 (\#86100)
