

Donut Robot® Auto Fryers (Gas)

Belshaw Automatic's Donut Robot® Mark II Gas / Mark II GP Gas Fryers deposit, fry, turn, and dispense cake donuts and mini donuts automatically. These fryers use the same cake donut depositor and the same conveyor as Donut Robot® electric models and produce donuts of the same high quality. Training and labor requirements are low, while consistent donuts are produced by a single person.

- Donut size can be adjusted to make smaller or larger donuts. (approx 20%)
- Frying time and temperature can be adjusted through a wide range.
- Donut Robot® fryers can reduce oil absorption in comparison with most kettle fryers applications.
